

Scenario Name	LinkedIn Resume Upload
Weak Prompt	Generate test cases for file upload.
What I Feel is Missing	• Application name • File type • File size limits • User roles (Premium / Non-Premium) • Validation rules • Security validations • Expected success/failure behavior
Instruction	Generate comprehensive positive, negative, edge, security, and non-functional test cases for the LinkedIn Resume Upload functionality for both registered premium and non-premium users.
Context	The application is LinkedIn. Registered users can upload their resume. The supported file format is PDF. The maximum allowed file size is 5 MB. Only one file can be uploaded at a time. The system should reject empty, corrupted, malicious, or unsupported files and display a success toast message after a successful upload.
Example	TC_001 Test Description: Verify that a registered user can upload a valid PDF resume equal to or less than 5 MB. Test Data: Resume.pdf (4 MB) Expected Result: The resume should be uploaded successfully, and a success toast message should be displayed.
Persona	Act as a Senior Automation Test Engineer with 8+ years of experience specializing in web application testing and test case design.
Output Format	Test Case ID Test Description Test Data Expected Steps Actual Test Results Status Comments
Tone	Professional

Rewritten Prompt	Persona: Act as a Senior Automation Test Engineer with 8+ years of experience specializing in web application testing and test case design. Context: The application is LinkedIn. Registered users can upload their resume. The supported file format is PDF. The maximum allowed file size is 5 MB. Only one file can be uploaded at a time. The system should reject empty, corrupted, malicious, or unsupported files and display a success toast message after a successful upload. Instruction: Generate comprehensive positive, negative, edge, security, and non-functional test cases for the LinkedIn Resume Upload functionality for both registered premium and non-premium users. Example: TC_001 – Verify that a registered user can upload a valid PDF resume equal to or less than 5 MB. Test Data: Resume.pdf (4 MB) Expected Result: Resume should be uploaded successfully with a success toast message. Output Format: Test Case ID Test Description Test Data Expected Steps Actual Test Results Status Comments Tone: Professional
Observations	1. The rewritten prompt provides complete context and removes ambiguity. 2. The persona guides the AI to think like an experienced QA engineer. 3. The example improves consistency in generated test cases. 4. The output format ensures structured and readable results. 5. The rewritten prompt produces more comprehensive and accurate test cases than the weak prompt.
